IAS STAFF MEETING MINUTES

15 September 1972

PRESENT:

1. [redacted] reported on the DDI Executive Council meetings he attended at Headquarters this week.

a. The DDI discussed the use of CIA documents in the Anderson column. It would appear to the reader that he must have unlimited access to everything CIA has. Anderson in fact has only two types of material he is reporting on; information from the CIA series on narcotics and a package of documents put together by CIA for OMB late last year. In December 1971 NSC held a series of meetings in which the OMB documents were used. Apparently someone who had access to the documents used in these meetings sent all the documents indiscriminately to Mr. Anderson. What you are reading is not current information. When business gets dull, he selects from this file.

b. Dr. Kissinger is scheduled to speak at the 25th anniversary award program. We have been asked to provide four people in specific categories to go attend this program. [redacted] were selected to attend. All DDI people who have 25 years of service are also to attend this awards ceremony.

c. Classification Act will have two changes coming out right now: (1) Those people who are authorized to classify documents--their Agency serial number will be used instead of the job position. (2) "Upon Approval of DCI"--will be replaced by "Indeterminate."
